Appendix to the privacy policy:

No.	Cookie name	Domain	Retention period	Function (description)
1.	IDE	doubleclick.net	1.5 years	It is used to re-direct, optimise, report and assign online ads. One of the basic cookies related to advertisements used on websites that are not owned by Google. It is saved under the doubleclick.net domain.
2.	fr	facebook.com	3 months	It is used for advertising purposes and indicates users whose accounts have been deactivated (opt-out).
3.	1P_JAR	google.com	1 month	It contains information about how the end-user uses the website and about any advertisements that the end-user could see before visiting this website.
4.	AID	google.com	2 years	It is used to display personalised advertisements at Google sites based on recent searches and previous interactions.
5.	ANID	google.com	1 year	It connects user's activities to other devices which were previously used by this user to log in from his/her Google account. On this basis, the advertisements displayed on devices are coordinated and conversion events are measured (Google Analytics).
6.	CONSENT	google.com	20 years	It stores user preferences and information every time the user visits websites with Google services.
7.	NID	google.com	1 year	It is used to store a set of preferences and other user information based on a unique Google ID.
8.	1P_JAR	google.pl	1 month	It contains information about how the end-user uses the website and about any advertisements that the end-user could see before visiting this website.
9.	ANID	google.pl	1 year	It connects user's activities to other devices which were previously used by this user to log in from his/her Google account. On this basis, advertisements displayed on devices are coordinated and conversion events are measured (Google Analytics).
10.	APISID	google.pl	2 years	It is set up using the website by advertising partners and used by them to create a user's interest profile and display relevant advertisements on other websites. This file operates by way of a unique browser and device identification (DoubleClick).
11.	CONSENT	google.pl	20 years	It stores user preferences and information every time the user visits websites featuring Google services.

12.	HSID	google.pl	2 years	It creates a user's interest profile and displays relevant advertisements on other websites (set up by DoubleClick, owned by Google).
13.	NID	google.pl	1 year	It contains a unique ID that Google uses to remember user's preferences and other information.
14.	SAPISID	google.pl	2 years	It is set up using the website by advertising partners and used by them to create a user's interest profile and display relevant advertisements on other websites. This file operates by a unique browser and device identification (DoubleClick).
15.	SID	google.pl	1 year	The files used by Google to display personalised advertisements on Google websites, based on recent searches and previous interactions.
16.	SSID	google.pl	2 years	It contains information about how the end-user uses the website and about any advertisements that the end-user could see before visiting this website.
17.	AID	googleadservices.com	2 years	The files used by Google to display personalised advertisements on Google websites, based on recent searches and previous interactions.
18.	PHPSESSID	hicron.com	1 year	A general identifier used to maintain user session variables generated by PHP-based applications. Typically, it is a randomly generated number, the use of which may be site-specific (for example, used to maintain the status of a logged-in user surfing between websites).
19.	__ca__chat	hicron.com	1 year	A cookie file generated by the User.com application. It stores information about the user's e-mail address and is used in the <b>chat application</b> .
20.	__cfduid	hicron.com	6 months	It is used to speed up website loading time. It replaces all security restrictions based on the user's IP address. It does not contain any information identifying the user (CloudFlare).
21.	_fbp	hicron.com	Session	It guarantees delivery of advertisements to individuals who have already visited the website, who are on Facebook or a digital platform powered by Facebook Advertising.
22.	_ga	hicron.com	2 years	It is used to distinguish unique users by assigning a randomly generated number as the customer ID. It is taken into account in every page request on the site and used to calculate guest, session and campaign data for site analysis reports (Google Universal Analytics).

v1 beta	Applicable from:	Page   3 of 4

23.	_gat_UA-20393019-1	hicron.com	10 minutes	It reduces request speed by limiting the quantity of data collected at high-traffic websites (Google Universal Analytics).
24.	_gid	hicron.com	24 hours	It is used to distinguish the users of our site.
25.	_icl_current_language	hicron.com	2 months	The file stores the value of the site's language location (it is related to the Wordpress plug-in from WPML - language support).
26.	hide-cookie-bar-hi	hicron.com	30 days	It remembers the action performed by a specific user – marked as [ X ] in the Cookie bar.
27.	mc_session_ids[default]	hicron.com	Session	It supports the Captcha mechanism used in online forms at <a href="http://www.hicron.com">www.hicron.com</a> to determine whether the user is in fact human or is emulated by some software.
28.	mc_session_ids[multi][0]	hicron.com	Session	It comes from the Captcha application used with website forms.
29.	mc_session_ids[multi][1]	hicron.com	Session	It comes from the Captcha application used with website forms.
30.	mc_session_ids[multi][2]	hicron.com	Session	It comes from the Captcha application used with website forms.
31.	mc_session_ids[multi][3]	hicron.com	Session	It comes from the Captcha application used with website forms.
32.	mc_session_ids[multi][4]	hicron.com	Session	It comes from the Captcha application used with website forms.
33.	UserMatchHistory	linkedin.com	2 months	It stores guests' preferences, which makes it possible to display more accurate advertisements based on user preferences.
34.	_ga	linkedin.com	2 years	It is used to distinguish unique users by assigning a randomly generated number as the customer ID. It is taken into account in every page request on the site and used to calculate guest, session and campaign data for site analysis reports (Google Universal Analytics).
35.	bcookie	linkedin.com	1 year	It is used to share the contents of a website using social media (Microsoft MSN - LinkedIn).
36.	lang	linkedin.com	Session	It remembers the website's language version selected by the user. It is used in the LinkedIn advertising system.
37.	lidc	linkedin.com	1 day	A cookie file that is responsible for routing. It ensures the correct operation of the website.
38.	BizID	ads.linkedin.com	6 months	A cookie file that incorporates user-based contents.
